

CRITERIA	Very imp.	Less imp.	WHY	Rural Ag
Economic	10		Reality/viable operation=viable families Vote with \$	
Tradition		10		
Optimal SCALE Food shed vs state	6	4	Time factor may effect decision of scale	
Emissions/Air	6	4	} Violate sustainability as our value if not taken into account	
Water Q & Q	10			
Soil Q & Q	10			
Diversity of Eco- system	5	5		
Human health	9	1	Reduce hospital cost—a means to measure we have achieved HBUO Increase 'Gross National Happiness'—selfish desire to live well	
Balance +/-	7	3	Decrease vulnerability Integration Stability—because we have a finite qty of organics	
Aviod other Carbon footprint fuels	5	5		
Food security Eliminate hunger	9	1	We need to feed ourselves well Food vs energy—>food not outweighed National security	
Energy security	6	4		
Integration of all criteria	9	2		
			Comment—Educate don't legislate: legislation with good intention doesn't always lead to the best environmental results
